LEPAS CONFIRMS UK PRICING FOR ALL-ELECTRIC L6 EV

- **LEPAS L6 EV prices start from £34,995 on-the-road**
- **Available in two trim levels: Essence and Elevate**
- **Elevate priced from £36,995 on-the-road, adding further comfort, convenience and intelligent parking technology**
- **65kWh LFP battery and 160kW (217PS) electric motor deliver up to 279 miles of WLTP range**
- **120kW DC charging provides a 30-80 per cent charge in approximately 22 minutes**
- **Standard equipment includes 19-inch diamond-cut alloy wheels, panoramic sunroof, 13.2-inch touchscreen, 540° camera and 22 ADAS functions**
- **7-year/100,000-mile vehicle warranty and 8-year/100,000-mile high-voltage battery warranty**

LEPAS has confirmed pricing of its first all-electric model for the All-New LEPAS L6 EV. A mid-size C-segment SUV, the L6 EV is designed as an elegant solution to the demands of modern family life and will be available from £34,995 on-the-road.

Offering impressive levels of room and range as well as a wealth of on-board technology, the L6 EV will be available in two distinct trim levels – Essence and Elevate – following the simple and transparent pricing convention introduced on the larger LEPAS L8.

Priced at £34,995 on-the-road, the L6 EV Essence offers a comprehensive suite of technology, safety and comfort features. Meanwhile, the L6 EV Elevate will be priced at £36,995 and will offer added luxury in the form of upgraded comfort and convenience, as well as intelligent parking technology.

Both variants use a 65kWh lithium iron phosphate (LFP) battery and front-mounted electric motor producing 160kW (217PS) and 275Nm of torque. The L6 EV delivers up to 279 miles of WLTP range, with 0-62mph taking 7.9 seconds. When charging is needed, the model’s 120kW DC capability can charge the battery from 30-80 per cent in approximately 22 minutes.

As with the L8, interior space and in-cabin flexibility are areas where the L6 EV excels. Built on LEPAS' LEX Platform, the model's 2,700mm wheelbase makes for impressive levels of legroom and headroom in both the front and rear, despite its compact C-SUV footprint. There's also plenty of cargo capacity, with the 410-litre boot expanding to 1,334 litres with the rear seats folded. An additional 99 litres of stowage is also available under the boot floor.

The metallic Lucid White exterior paint comes as standard, with Phantom Grey, Cosmic Black, Quicksilver and two further bright paint colours in Solar Orange and Supernova Purple at an additional £500.

Generous specification as standard

Both Essence and Elevate feature 19-inch diamond-cut alloy wheels, LED lighting with Intelligent High Beam Assist, privacy glass, a panoramic sunroof with electric sunshade, dual-zone climate control, a heated multifunction steering wheel and a 13.2-inch central touchscreen. An 8.88-inch digital driver display, 50W wireless smartphone charging with active cooling and the Hello LEPAS voice assistant are also standard.

Both versions also include 22 advanced driver assistance functions, front and rear parking sensors and a 540° panoramic camera system. Safety equipment includes Autonomous Emergency Braking, Adaptive Cruise Control, Lane Keep Assist, Blind Spot Detection and Traffic Jam Assist.

Elevate adds full leather-effect upholstery, six-way power-adjustable front seats with four-way power lumbar support for the driver, heated and ventilated front seats, a power tailgate, Nano-Aqua Ion Air Purification System, 256-colour ambient lighting, SONY premium eight-speaker audio, Advanced Parking Assist and Remote Parking Assist.

Designed for everyday electric driving

The L6 EV brings LEPAS' Leopard Aesthetics design philosophy to the C-SUV market, with clean, flowing surfaces, signature Hunting Eye LED headlights and distinctive LED rear lighting. The model measures 4,570mm long, 1,852mm wide excluding mirrors and 1,676mm high.

Every L6 EV comes with a 7-year/100,000-mile manufacturer warranty and an 8-year/100,000-mile high-voltage battery warranty. RAC Roadside Assistance is provided for the first 12 months and is renewed for up to seven years when scheduled servicing is completed at an authorised LEPAS service centre. Over-the-Air and Firmware-Over-the-Air updates allow vehicle software and functions to be updated throughout the car's life.

About LEPAS UK

LEPAS is a design-led, new energy vehicle brand from global carmaker Chery Auto, which operates in the UK as Chery International.

Its name - a portmanteau of the words leopard and passion - captures the brand's philosophy: translating the leopard's fluid form into expressive, stylistic design and channelling its agility and power into precise handling and confident all-round performance. With advanced engineering and intelligent technology, the result is elegant mobility.

The LEPAS UK model line-up comprises the L8 PHEV and L6 EV, with further electrified models planned. The brand is supported by its expanding UK retailer network, its dedicated UK R&D Centre of Excellence at UTAC Millbrook, RAC roadside assistance and DHL parts supply.

About Chery Auto

Founded in 1997, Chery Auto is a global automotive manufacturer specialising in vehicle development, intelligent technologies and new energy solutions. The company operates in more than 130 countries and regions, supported by an international network of research, production and strategic partnerships. Chery Auto has remained China's No. 1 passenger vehicle exporter among Chinese brands for 23 consecutive years. Guided by its global philosophy of In somewhere, for somewhere, be somewhere, Chery Auto is committed to advancing sustainable mobility through continuous innovation and global collaboration.
